

# Job Description Builder

Instantly build job descriptions with the help of Artificial Intelligence.

Writing job descriptions from scratch can be tedious and time consuming. With JobTarget's Job Description Builder, instantly generate responsibilities and requirements for your job so you can focus on what matters most.

## Powered by AI.

Simply enter a job title into the JobTarget Job Description Builder and within seconds, a fully formed description is generated for you!

## Build, regenerate, and edit.

Want to make some changes of your own to the generated description? No problem. Our fields are fully customizable so you can build your description to your liking. You can even regenerate a description if you're looking for something different.

## Use as needed.

Once you're ready to start using your new job description, just copy and paste to wherever you need. And enjoy the time you just saved by not building a description from scratch!

### Recruiter Pro Tip

Set yourself up for success with our **step-by-step** guide to creating effective job ads!
